

The work deals with psychosomatic in connection with the corresponding biblical stories and is divided into several parts. First, the reader is introduced to the general issue of psychosomatics from which is transition to the specific examples of psychosomatic diseases and along with a sample of places which deal with them. The work also continues to the spiritual dimension of a person, where is explain what it is and whether everybody has it. This chapter also includes the topic of spirituality and specifically Christian spirituality. Furthermore, there is an of three ways from a Christian point of view how to take care of own spiritual component, which includes the preoccupation with the Bible. Thus it is move towards a bridging subject between psychosomatics and biblical stories of healing, which is Hagiotherapy. In Hagiotherapy there is clarify the term, describe to how Hagiotherapy session look like, how people work with the Bible there and how the Bible can help a person as a whole. The penultimate circuit are illness and healing in the Bible, where I point to how the disease was understood in biblical times. However, there is refer to the last and crucial part which is an effort of the disassembly of selected biblical stories of healing and an offer how they can help contemporary people to have their components in a peaceful balance.
